About CyberForce®

The Department of Energy's (DOE) CyberForce® Program is a workforce development program that seeks to inspire and develop the next generation of cyber defenders for the energy sector through hands-on competitions, webinars, learning resources, and career fairs.

It strives to raise awareness of the nexus between critical infrastructure and cybersecurity through competitions that:

- make critical thinking and soft skills key components,
- narrow in on both OT and IT cyber skills,
- value both individual and team balanced work,
- emulate real-world scenarios,
- provide them the tools to bolster their cyber skills and experience throughout their career seeking process, and
- build their self confidence.

**MAKE AN IMPACT
ON THE NEXT
GENERATION OF
CYBER DEFENDERS**

2023 CyberForce® Impact

**Over 1,600
program
participants**

**43 states, the
District of
Columbia, and
Puerto Rico**

academic
institutions**

**36.98% from
Minority
Serving
Institutions**

3 competitions

- 2 virtual
- 1 in-person

2 career fairs

- professional
- collegiate

Why Support CyberForce®?

COMPANY AWARENESS

Establish your company's name to over 1,600 participants yearly who participate and are looking for internships, apprenticeships, and careers.

NETWORK WITH CANDIDATES

Participate in our virtual and in-person career fairs and events to interact with our eager participants. Share your company's needs, wants, and overall work-life to engage these candidates to apply.

CYBERSECURITY WORKFORCE ADVOCATE

Empowering and backing the next generation of defenders embodies a company's overall morals and ethics. Candidates are more likely to apply and engage with organizations that openly seek to support their common goals.
